

NEW: IN-HOUSE TRAINING COURSE

INTRODUCTION TO PEER MENTORING

A huge turning point for me was the realisation that everyone has the solution!

THE COURSE

Do you want to develop the skills of the people in your organisation so they can better share their expertise and knowledge?

Do you want your teams to learn great processes to enable them to really work together to get to actual decisions, action and results?

If so, check out this course!

Learn how the learning, skills and experiences of your teams, organisations and communities can be shared with others, to achieve positive and successful outcomes and to develop individual and structural resilience and organisational sustainability.

During the course you will:

- gain a better understand the concept of a peer to peer mentoring relationship
- develop skills in questioning and listening
- learn how to challenge but also support those you are mentoring
- understand the need to set appropriate expectations and boundaries
- better value your own learning and experience
